

MICROSOFT TEAMS HAS LEVELLED UP AT UCT!

It's faster, smoother, and easier to use. Collaboration just got better.

What's new

- Better performance with faster loading times, smoother experience and reduced battery usage.
- New look: modern and dark mode-friendly.
- Faster meeting joins, presenters see participant engagement (raised hands, cameras).
- New meeting backgrounds.
- Profile customisation: status durations, and create your own avatar.
- Improved channels and chats.
- Ability to access and manage profiles without switching accounts.
